CITADEL UNDERCOAT SPRAYS

CITADEL UNDERCOAT SPRAYS designed for undercoating Metal and Plastic models. The purpose of the undercoat is to act as a primer and provide a flat base colour to paint onto. The spray finish is far flatter and better to paint onto than a brushed undercoat. The can contains 400ml of black undercoat.

CODE	TYPE	PRICE
62-02	Citadel Spray 400ml Chaos Black	£9.99
62-01	Citadel Spray 400ml Skull White	£9.99

CITADEL UNDERCOAT SPRAYS

CITADEL PURITY SEAL SPRAY an overall protective varnish that serves two functions, to enable models to be handled without excessively wearing or chipping the paint and to give the model an overall consistent appearance. Citadel Purity Seal has a Semi-Matt or Satin finish that is very much like the natural sheen of the paint itself and removes any unwanted shininess from Inks or Gloss Varnish. The can contains 400ml.
