DAYLIGHT SIMULATION BULBS

DAYLIGHT SIMULATION BULBS give a clear cool light that allows perfect colour matching and are more relaxing to the eyes. They are also excellent for reading and are easily interchangeable with normal incandescent bulbs. They are recommended for use in task lamps so that the light can be positioned close to the work. A range of bulb fittings are available. Average life 1,000 hours. A wide range of bulbs are available from pygmy bulbs for sewing machines, standard type bulbs for task lamps and a new range of daylight energy saving bulbs. 60W and 100W spot light bulbs are available. The 11 watt Ultra ES fitting energy saving bulb is suitable for use in lamps and magnifying lamps which normally use an ordinary bulb. **Note Limited Availability of old Style Bulbs, Low Energy Types remain available.**

BC (B22) = bayonet cap. **SBC (B15)** = small bayonet cap.
ES (E27) = edison screw. **SES (E14)** = small edison screw.
