SQUIRES MODEL & CRAFT TOOLS

TAMIYA SPRAY PAINTS

TAMIYA SPRAY PAINTS a range of spray paints suitable for painting large surfaces. The paint is a synthetic lacquer that has a fast cure time. Each tin contains sufficient to fully cover 2 or 3 1/24 scale car bodies. The paint is not affected by acrylic or enamel paints, so after painting with Tamiya spray paints, detail can be picked out using enamel or acrylic paints. Contains 100ml.

LIQUITEX CRAFT & HOBBY ACRYLIC PAINT

LIQUITEX SOFT BODY ARTIST ACRYLIC COLOUR formally known as 'Medium Viscosity Concentrated Artist Acrylic', Artist quality paint, pigmented with intense, pure colour creating a smooth creamy consistency that retains little or no brush marks. Available in a wide spectrum of colours. Each colour is uniquely formulated to bring out the, maximum brilliance and clarity of each individual pigment. Suitable for a wide variety of applications and techniques including:- Traditional Canvas Painting, Canvas Boards, Fabric Painting, Faux Finishing, Glazing, Murals, Calligraphy, Unfired Ceramics, Sculptures, Photographic Retouching, Watercolour, Illustration and Design, Airbrushing, Print making, etc. The acrylic colour is resistant to ultra-violet light and will not yellow or become brittle over time. The colour is water-soluble when wet but dries to a water-resistant flexible satin sheen. Will adhere to a wide range of surfaces including:- Paper, Canvas, Plastic, Wood, Leather, Silk, Metal, Concrete, Plaster, Cement, Concrete Block, and any Masonry Surface. Suitable for indoor or outdoor applications. If using with an airbrush it is recommended to thin colours to a milky consistency using Liquitex Airbrush Medium, and **Do Not** to use any 'Cadmium' colours as these will block the tip.

ACRYLIC AIRBRUSH MEDIUM

LIQUITEX ACRYLIC AIRBRUSH MEDIUM specially formatted for thinning Acrylic Colours, or any water-soluble paints to a sprayable consistency, with-out the colours losing flexibility, durability and adhesion. Can be mixed with Liquitex Soft Body Artist Acrylic Colours with-out a need to strain before using in an Airbrush. Liquitex Heavy Body Artist Acrylic Mediums need to be strained to remove any un-dissolved pigment before using in an Airbrush. The Airbrush must be kept wet during use, and cleaned immediately after use with water, water/ammonia mixture, Airbrush Cleaner or Alcohol. Never allow the paint to dry in the Airbrush. Colours that contain Cadmium **should not** be used in an Airbrush, as the pigments tend to block the Airbrush Nozzle.
