MOD-ROC

MOD-ROC BANDAGES a plaster-resin impregnated gauze modelling material that is versatile, hard wearing, fast and easy to use whilst providing good definition and detail in the model. The resin is specially selected to be more chip-proof, which is the main disadvantage of plaster impregnated rolls, whilst maintaining the qualities of fast setting and ease of use. The rolls are 6" wide with an approximate length of 9 feet. Supplied in a range of pack sizes in a dispenser box containing a single bandage of 6" width, approx 241 foot, easy to cut off just the right length, offering a substantial saving over the packed prices.
