TOOLS MINI CATALOGUE FEBRUARY 2023

SQUIRES MODEL & CRAFT TOOLS

Dear Customer,

Welcome to a **"Mini" Catalogue**, that features a number of tools that we stock.

We have been promising a complete new **Tools & Materials Catalogue** for a long time. Much of the preparation work for the new catalogue is well under way, but there is still many new products still being worked on. As we cannot print the new catalogue until the last page is complete, we have decided to publish a number of **"Mini" Catalogues** to keep you informed. Please also check on our website for further information which we are also working to improve.

Other **"Mini" Catalogues** to lookout for coming soon:- **Power Tools & Accessories**; and **Electrical Components**. The shop renovations are progressing and many customers come down to visit, but if you are too far away to visit us, we exhibit at many shows around the country which we advertise on our website and in the model press. We hope to see you at some of the shows.

Kind Regards
Roger

TAMIYA MASKING TAPE a very thin self-adhesive paper tape specially developed for model applications. The tape is flexible and easily applied to curved surfaces, and because it is very thin, paint lines left after removal are minimal. Low tack and leaves no residue after removal. Available in 3 widths, supplied in a handy plastic dispenser. A 40mm width tape is also available, this is **NOT** supplied in a dispenser. Length 18M all widths. Refills also now available.
